

EXPERIENCE NEAR-DEATH TO TRULY APPRECIATE LIFE

DON'T TRY
THIS AT HOME

SYNOPSIS OF THE SHOW

DON'T TRY THIS AT HOME puts the viewer in settings that would typically kill the first-person observer. From jumping off a sky scraper to being lost at sea surrounded by sharks, the immersive, 360° Virtual Reality storytelling is meant to astound and shock our audience.

Everyday, millions of people around the world ride roller coasters and jump out of planes. This show embodies the saying, "in order to appreciate life one must come close to death." This show creates a one-stop-shop to refuel an adrenaline-junky's cravings.

Wonderworld VR will create a series of short, first-person narrative VR events featuring "impossible to experience and survive" environments.

WonderWorld VR will create branded content around *Don't Try This At Home* in a similar way the *Mythbusters* showcase extreme situations. However, instead of just doing experiments, we will create a short, first-person narrative that brings the audience inside disasters and accidents in a way that hasn't been possible before.

Wonderworld VR sees this as a unique opportunity to bring the audience closer to the magic of Virtual Reality, and we know *Don't Try This At Home* will explore cuttingedge ways to showcase real life-threatening situations on this emerging platform.

REACTIONS WE WANT

EXPERIENCES WE PUSH YOU ON

DANGERS WE THROW YOU IN

NIGHTMARES WE REALIZE

SITUATIONS YOU DON'T WANT TO BE IN

DISTRIBUTION

Wonderworld VR will create an easy-to-use distribution platform through a smart-phone application. This app will house the infinite stories, experiences, fears and nightmares giving the user the ability to choose their own fate. Users beware.

Users connected through Twitter, Facebook, and Instagram will be able to ask for certain types of experiences. #iwantttothis
